

HELICOPTER GAZELLE WITH ARMAMENT (POVR PAUK/SPIDER)

Pauk/Spider is anti-armored missile system guided by optical cable (radio link is optional), intended for integration to mobile ground and air platforms (Gazelle helicopter). The missile is equipped with infra-red homing head. The system enables attacking targets outside the field of view significantly reducing exposure to the enemy's fire.

TECHNICAL CHARACTERISTICS:

Range	8+ km
Warhead	tandem
Penetrability	up to 1000 mm behind ERA
Missile length	1,8 m
Caliber	140 mm
Wing span	840 mm
Take-off missile mass	40 kg
