

FAP 1118 BS/AV 6x6, 4t with mobile water tanker of 4.000 litres

Off-road vehicle FAP 1118 is intended for transport of up to 4 t equipment on the terrain.

It is equipped with an auxiliary chassis that enables the transport of container integrations, as well as with a snow plow carrier with a snow plow on it.

In this case, it is equipped with a mobile (vehicle independent) water tanker of tank volume of 4.000 litres, with engine-driven pump (ICE). The purpose of this system is implementation of water supply for remote facilities located in highly inaccessible areas, with the capability of snow plowing.

TECHNICAL CHARACTERISTICS:

Engine:	OM 904 LA EU 3, of power of 130 kW (180 HP)
Gearbox:	6.MS, 6+1 transmission
Drivetrain:	4x2, with differential lock
Vehicle weight:	6.890 kg
Payload:	4.000 kg
Trailer weight:	4.800 kg
Length/Width/height:	6.400 mm/2.500 mm/3.200 mm
Maximum speed:	90 km/h
Clearance:	285 mm
Operational range:	700 km
Tires:	365/80 R 20
