

## PD INERTIAL FUSE UDI – 2F

The fuse is intended for completion of HE warhead of the "MALYUTKA 2F" missile.

### TECHNICAL CHARACTERISTICS:

Fuse type:	point-detonation, mechanical, impact
Self-liquidation:	pyrotechnic
Self-liquidation time:	from 34 s to 59 s
Muzzle safety distance:	70 m to 200 m
Required for arming	
• setback:	from 110 m/s <sup>2</sup>
• rotation:	110o/min to 120 o/min
Temperature range:	
• operational:	-30°C to +50 °C
Fuse weight:	0,225 kg
Life cycle:	15 years
Status:	in AME of SAF
