

IMPACT FUSE UT, M22

The fuse is intended for completion of the warhead of the surface-to-surface 128 mm, M20 "OGANJ" rocket missile.

TECHNICAL CHARACTERISTICS:

Possessing:	superquick function
Functioning at	
• axial acceleration:	(310±10) m/s ²
Reliability:	min. 96%
Temperature range	
• operational:	-30°C up to +50 °C
• storage:	-40°C up to +60 °C
Standard:	MIL-TD-316D MIL-STD-331
Weight:	1,160 kg
Life sysle:	15 years
Status:	In development
